Privacy

Classroom Toolkit has no ads, no accounts and no tracking. It works without the internet and never sends anything anywhere. Class lists and settings are saved only in the browser on your computer. The Noise Meter listens to the room level only while it is open; it never records or stores sound.

Good to know

Classroom Toolkit was tested carefully, but computers and browsers differ: please try it on your own devices before relying on it in a lesson. Export your classes now and then as a backup. If anything doesn't work, ask in the Q&A on the Teachers Pay Teachers product page.
